

Why Are We Here?

The vision for Welcon, now and in the future is as follows:

To responsibly manage our clients' electrical projects:

We provide value-for-money Electrical Engineering solutions with specific emphasis on High Voltage, Electrical, Process Control and Information Technology Systems.

To be the preferred solutions provider in our field:

We are selected for our responsiveness, our pursuit of excellence, and our eagerness "to go the extra mile" for our clients.

To operate every aspect of the business with honesty and integrity:

*We associate with clients and companies that share our values.
We ensure that our staff and systems support these values.*

To respect the needs of the individual and their families:

*We acknowledge that staff at all levels provide a valuable contribution.
We provide a flexible work environment to support individual and family needs.*

To enjoy coming to work:

*We value the relationships that we develop with our clients, our colleagues and our suppliers.
We relish learning new skills and improving our capabilities.*

To be successful:

*We provide opportunities for staff to achieve their career potential.
We take pride in our reputation to ensure ongoing business growth.*

These values are the foundations of our company, and we use them in our day-to-day decision making processes.

We enforce these values within our Company as non-negotiable, minimum standards of behaviour.
